I have been going to our school since almost six years now. I have had a fantastic time. I remember the first day very good. Also I didn't know anybody in my class, I felt comfortable right from the beginning.

The teachers and the other students were really nice. (3)

We have been on several trips together: the North Sea, London and a hiking trip. At the North Sea we have stayed in small houses and had to cook for us. That was fun. Our last trip was only a few months before. We went to London. It was so different from home. My hometown is not so big like London. So we really enjoyed all the sights and the shopping. (4)

Now I am working hard on my final exams and hope to get good notes. I am sure that I will miss my school and my friends and hope to listen from them when we are all doing different things. (2)

A fantastic experience

I've never had such a ~~very remarkable~~ \_\_\_\_\_ time in my

life. Last summer I ~~have spent~~ \_\_\_\_\_ four weeks in

Tanzania. But I wasn't there to enjoy the sun – I joined a project for poor children.

When I didn't work in the Daycare Centre, I used the time to study the local culture. The people there told me a lot about ~~her~~ \_\_\_\_\_ life.

The organization ~~taked care~~ \_\_\_\_\_ of everything, from the

time I landed until I went back home. I stayed at a ~~pension~~ \_\_\_\_\_

with young people from different countries.

We were involved on \_\_\_\_\_ different projects and learned a lot about each other. For me this was as important like \_\_\_\_\_ the project himself \_\_\_\_\_.

The time there was an unforgettable experience, and she \_\_\_\_\_ helped me to get to know ourselves \_\_\_\_\_ better and make a decision about my future.
